Agile Project Status BVIR (Big Visual Information Radiator)

REVIEW
HISTORY

Meets Specifications

Hello Amnah

👏🏼👏🏼👏🏼 Congratulations on completing this project successfully.
Your work was amazing and I have really enjoyed reviewing your work. You have done exceptional work on the project:

- All the sprints are perfectly built;
- All the story points are well allocated and excellently prioritized;
- The BVIR and the presentation are all exceptional; Well done working on the BVIR ,an building the Roadmap is innovative.
  To say that I enjoyed going through your work would be an understatement.

You obviously put a lot of work into this and I am glad that it paid off.
Keep up the good work! ✊🏽
Be Udacioused 🦄 and Keep it going like this!

Congratulations and wish you all the best with the rest of the nanodegree.
Finally, I would like to share with you some great articles for continuous learning:

1. Different Agile Methodologies: Find Which One Fits Best Your Needs
2. Agile Project Management For Dummies Cheat Sheet
3. The Ultimate Agile Dictionary

Don't forget to rate my work as project reviewer! Your detailed feedback is very helpful and appreciated - thank you!

Stay safe 😁

Continuous Improvement

For sprints #3-#6:

- **Correct Burn-Up charts for each of the sprints are included**
- **Correct Burn-Down charts or each of the sprints are included**
- **Correctly prioritize the work in the user stories tab**
- **Sprint 4-6 Demos information radiator needs to include**
  - **Which story was completed**
  - **How many story points each story included**
  - **Information in the Narrative, Results, and Learning section**
    Risks, if appropriate

Great Start here!!!

- ✅ You have successfully completed the following:
  - Correct Burn-Up charts for each of the sprints.
  - Correct Burn-Down charts or each of the sprints.
  - Correctly prioritize the work in the user stories tab
  - Sprint 4-6 Demos information radiator needs to include
    - Which story was completed
    - How many story points each story included
    - Information in the Narrative, Results, and Learning section

Extra Learning
Burndown vs Burnup Chart

- **The Velocity calculation for Sprints 1-3 is accurate.**
- **Determine the velocity going forward based on established metrics.**
- **The justification for the number of points for sprint #4 is consistent with the project scenario and reflects good Agile practices.**

Awesome Work!!!

- ✅ The Velocity calculation for Sprints 1-3 is accurate.
- ✅ The Determined velocity going forward based on established metrics.
- ✅ Accurate justification for the number of points for sprint #4 is consistent with the project

scenario and reflects good Agile practices.

Extra Learning
How to estimate sprint velocity for better Agile planning

Prioritization

- Clearly communicates risks and challenges
  - Uses data to support communications and recommendations
- The end of sprint information radiators contains potential risks to stakeholders for Sprint 5.
- Student provides a rationale for the impact on the risk for the project

Well done here!!

- ✅ You have accurately communicated the risks and challenges using data to support communications and recommendations.
- ✅ The end of sprint information radiators contain potential risks to stakeholders for Sprint 5 and have provided a rationale for the impact on the risk for the project.

Extra Learning
Information radiator

- Prioritize the order the user stories as the Product Owner in each Sprint
- The correct number of stories and story points are assigned to each Sprint according to the information provided to the team

Nicely done!!!

- ✅ You have accurately Prioritized the order of the user stories as the Product Owner in each Sprint.
- ✅ The correct number of stories and story points are assigned to each Sprint according to the information provided to the team.

Extra Learning
How To Write - a Guide for Product Owner, Scrum Master and Everyone

Communicating Progress and Project Summary

- **Create the end-of-sprint IR's for each Sprint**
- **Creates a BVIR for the entire project once all Sprints are complete**
- **BVIR communicates the correct information for the project to Management**

Awesome Job!!!

- ✅ You have correctly created the end-of-sprint IR's for each Sprint.
- ✅ You have correctly created a BVIR for the entire project once all Sprints are complete.
- ✅ You have correctly provided the BVIR communicates the correct information for the project to Management.

Extra Learning
Sprint planning

- **Clearly displays the relevant information and metrics to the audience**
- **Creates narrative or video (preferred) to walk through the final BVIR explaining the project MVP**
Well done here.

- ✅ You have clearly displayed the relevant information and metrics to the audience.
- ✅ You have accurately created a narrative or video (preferred) to walk through the final BVIR explaining the project MVP.

Extra Reading
How to Build a Successful Minimum Viable Product (MVP) in 3 Steps

- **Submits video (preferred) or narrative answers with explanations for the final four video questions**
- **Provides justification to the stakeholders using data from the sprints for each question**

Great job!!!

- ✅ You have submitted video (preferred) or narrative answers with explanations for the final four video questions.
- ✅ You have accurately Provided justification to the stakeholders using data from the sprints for each question.
